

include/beecrypt/blowfishopt.h

```
graph TD; A[include/beecrypt/blowfishopt.h] --> B[beecrypt/beecrypt.h]; A --> C[beecrypt/blowfish.h];
```

The diagram illustrates a header file dependency. A top box labeled 'include/beecrypt/blowfishopt.h' has two arrows pointing downwards to two separate boxes below it. The left box is labeled 'beecrypt/beecrypt.h' and the right box is labeled 'beecrypt/blowfish.h'. This indicates that the 'include/beecrypt/blowfishopt.h' file includes both 'beecrypt/beecrypt.h' and 'beecrypt/blowfish.h'.
